EXPERIENCIA LABORAL

2023 FINANCIERAS COFINCAFE - currently employed

Junior Developer

2023 FINANCIERAS COFINCAFE 6 MONTHS

Software Engineering passant

I created systems for bank income/visitor management and coworking space administration. Enhanced security, control, customer service. Added Power BI module for a cooperative, integrated with Keycloak for Single Sign-On. Future plan: implement in financial core.

ABOUT ME

I am a software engineering student in the eighth semester at the University EAM. My motivation is rooted in the belief that technology has no limits and can turn ideas into reality. Throughout my studies, I have acquired strong technical skills in web application development using Java with SpringBoot and Angular. Additionally, I have worked with other technologies such as Ionic, Python, Kotlin, and Node.js, although at a more basic level compared to my expertise in Java.

EDUCATION

2020 - Actualidad

Software Engineering (eighth semester)

University EAM

2020 - 2023
